Harold -

Correction on the letter which  
I sent to Nichols regarding  
CE 541, photos #3 and #4.

These are the ones which  
I suggested were cropped  
so as to remove the inscription,  
MADE ITALY. I think, after  
all, that I see the inscription  
on the barrel just in front  
of the receiver. It is so faint  
that it is hardly visible, but  
I believe it is there.

Sorry for the error.
